red fox Choose a different animal, which you know something about, and create a riddle using kennings or two-word phrases, like those used by Robert Macfarlane for Red Fox:

LESSON 2: Outfoxed? Red and Gray Fox Niches and Adaptations

The only major difference is habitat - the gray fox lives almost exclusively in deciduous forests and sometimes old fields, while the red fox seems to be able to live in nearly all habitats except dense forests 3 Some species may be more flexible in their niche than others One feature of a

The RED FOX SQUIRREL-HAIR NYMPH

rather than passively suggestive Red Fox Squirrel Nymph Variations: 1 Bead-head, rubber-legged 2 Caddis pupa 3 October caddis pupa 4 Standard RFSHN 5 Bead-head 6 Crustacean The material used to tie the Red Fox Squirrel-Hair Nymph is most responsible for the fly's effectiveness It is tied with rich orange-tan red fox squirrel belly fur

North Carolina Wildlife Profiles

Gray Fox *Urocyon cinereoargenteus* Though both the red fox and the gray fox live in North Carolina today, the gray fox is the state's only native fox species Red foxes were brought here from Europe by fox hunters in the early 1700s Even though storytellers and writers have depicted the red fox as cunning, intelligent and shrewd,

FUR, FLUFF, AND OTHER STUFF!

greater warmth, just like when you wear a down jacket! Tools for Science: Infrared! Infrared photography is sensitive to heat rather than light - red, orange, and yellow areas show warmth or areas of high heat loss, and purple to blue indicates cold areas that are losing little heat Polar bears (*Ursus maritimus*)

SNAKES AND THE LAW IN ILLINOIS SNAKES OF ILLINOIS

If you would rather not be surprised some day by a snake in your garden or yard, there are three things you can do to minimize the chances of that happening: (1) Keep your lawn mowed regularly; Tall grass can be good habitat for snakes (2) Keep woodpiles off the ground; These make good nesting sites for rodents, which in turn attract snakes

Evaluating Human -Coyote Encounters in an Urban Landscape ...

Rather than iNaturalist users seeking out coyotes, we believe that the human-coyote encounters were happenstance due to the type of reported encounters Based on nominal media reports of science sightings of coyotes and red fox in Madison iNaturalist is an online social network designed to
